

HAPPY BIRTHDAY!

it holds hot stuff that's good in the morning

it's used to play baseball but it's kept in the kitchen somewhere.

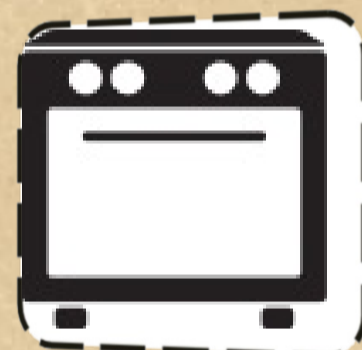

when you tired or want to relax this is the thing. but maybe its under something.

we sit on it to eat but its probably hidden underneath

it's not a teatable. But a hot morning drink table.

WATCH OUT! it's hot when we cook in it.

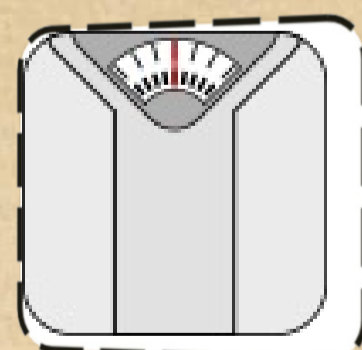

when we don't use the appliance before we nuke our food in here.

for breakfast we make brown and crispy bread in this.

when we're tired we go and sleep on this.

this tells us how fat or skinny we are.
