

Broccoli is good for me, Where on campus
am I really a tree?

Trash overflows out of me, Most people
bring their junk and then flee.

Our p----- on campus are the best, People
walk across to take a rest.

Once we were blue, but now are green, The
teachers hope you keep us clean.

I come here often to get wet, When it is hot,
I'm the best bet.

My wall looks broken, but I'm really fine. If
you run around, try to stay near the outside
line.

I'm built with a s---- and kids play and ride,
I'm kind of up h--- so come on by.

I'm b---k with an e----, cued up for our date,
Come rack 'um up - your late.

Climing a nine storey builing can seem
pretty high, But why don't you give it a good
old try.

I'm low to the ground, but easily found. I'm
where one sits down, when the other team
takes the mound.
