

Listen for a non-human-made sound: what did you hear?

Do you observe a moss-covered rock anywhere? Write where you found it.

Listen for a human-made sound: what did you hear?

Do you see eroded soil anywhere? Write down where you observed it.

Look for at least 3 different kinds of leaves. Draw the leaves.

Do you see nuts or berries? Draw them and write where you observed them.

Do you see a water source anywhere? Write down where you found it.

Do you observe any evidence of animals? Draw and label what you observed.

Draw some tree bark--label it rough or smooth.

Sketch and write the favorite part of your hike today.
