

HAPPY BIRTHDAY!

Forward I am heavy, but backwards I am not. What am I?

Even when you don't know, your nose still knows!

How much dirt is in a hole 4 feet deep and 2 feet wide?

It's hard, soft, safe, dangerous, quiet, loud, confined, and freedom all in one!

If you were in a dark room with a candle, gas lamp, match, and a stove which do you light first?

I found a gift, I picked it up, I put it on the table!

What turns everything around but doesn't move?

A few things you are- A couple things that will never change- A few things to ALWAYS remember-

What is as big as you but doesn't weigh anything?

Big/small, short/tall, warm/cold, new/old, dark/light and grows over time!
