

We are all superheroes! Tough Lab girls rule! Name the youngest, the longest employed - find out and be cool.

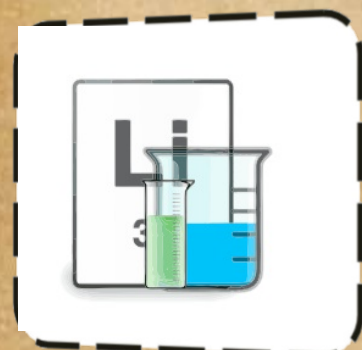

The guys all rock and they ain't from here. Where were they born - How far, how near?

They control our fate and give us the tools. Name all 6 admins and the places they rule.

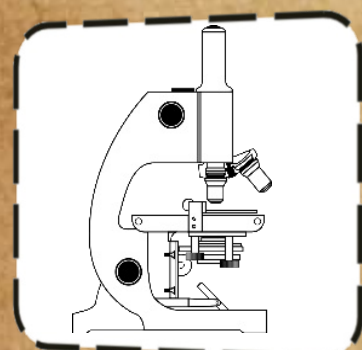

Name this place in the lab - you know if it's you, you look like this guy when your turn is through.

If a word or unit of measure gets by instead of a number, you get a CSI. What did I do?

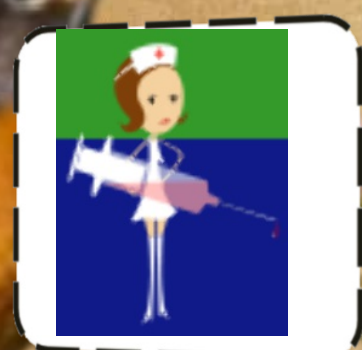

A superhero it's true, even though fairly new, name the 3 best things she's done to impress YOU (and make the lab better)

The name of the scope where fluids are screened. The kind of filter that makes crystals seen.

If you know how to become like this look, you better name the test that in April you took.

Nurses are good phlebotomists - it can be true. Can you picture the ED and name at least 2?

A dragon on 1, A Disney figure on 2, any one will do - pick any person for tattoo 3, but give owner names for 1 and 2.
