

I have four legs. I am made of wood and fabric. You can rest on me. It is a piece of furniture.

If I am dirty I want to go here and spin.

It keeps things cold. It has a door. It does not freeze.

Talk, talk, talk. I'm old technology that plugs in.

It is a small carpet. It greets us when we come home. We clean our shoes with it.

I have lots of keys. And am black and white.

It is full of information. It takes power to run.

I go around and around but don't move. I help get people fit.

It looks alive but is not. It sits all day in richness.

I stand tall every Sunday and help Bobby deliver a message. He can lean on me.
