

Leaves that have already fallen to the ground. Name the trees that they may have come from.

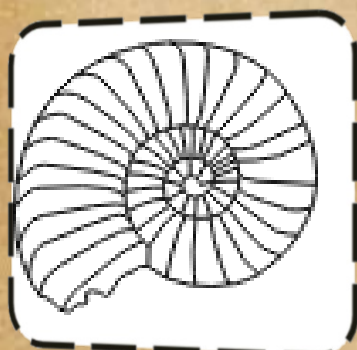

A feather. From what type of bird did it come?

Animal droppings. But, don't pick them up... ewww! Show a leader. What animal did they come from?

Insects... ..ones that you found already dead, unless they're really easy to catch.

Sea shells of any kind. These can be found even in the woods.

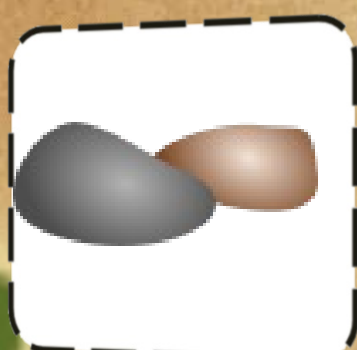

Flowers that have already fallen to the ground.

Seeds or seed pods... just ones that have already fallen to the ground.

Something prickly... ..but not alive.

Smooth rocks and pebbles. Yes, ones that have already fallen to the ground.

Pieces of old litter... very old and dried up.
