

I often stand on one foot and I am pink because of the food I eat. What food do you think turns me pink?

My stripe pattern is not only on my fur but also on my skin. If all my hair was shaved off you would still see the stripes.

I love to swing from the trees. Can you find me?

I blend in with the logs. How many of me can you find?

I'm just a little sun bear who likes to climb my little tree. Do you see me?

I am a very large mammal with a long trunk. Mark me off when you see me.

My horn is made up of keratin which is the same thing your nails and hair are made of. How many of me do you see?

A group of us are called a mob, gang, or clan. We usually have a family of about 20. How many do you see here?

Did you know I can see very well and they think I can see in color? Do you see me?

I have a long neck that reaches high up to the trees. Cross me off when you find me.
