

look through the window and you will see
the starting point is at a tree

they grow on trees and are shiny and red
but sometimes found on the ground
instead

they start off green and then they fall they
grow on trees some big some small

they open when dry and close when wet
have you found a ---- yet?

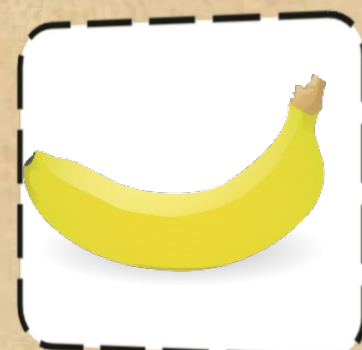

the birds all wear them as a coat it helps
them fly and they also float

you're solving the clues and getting better
now you need to find a letter

they live in the garden and might make you
squirm can you find a wriggly ----

it's long and yellow and sometimes thin but
please don't slip on the ----- skin

they're everyones favourite from under the
soil they often wear jackets but sometimes
they boil

now if you have solved every clue maybe
there'll be a present for you BUT WHERE???
