

Dropping from the sky more beautiful than rain
There are no two pieces That'll ever look the same

When he gets on his vehicle He tells his animals to go go go
And he's a jolly old fellow As he is always going ho ho ho

These oversized socks are hung Up above the fireplace
Where they're stuffed with lots of gifts To put a smile on your face

You have to make him quickly Not much time to have some fun
He won't stick around for long Once he's been out in the sun

I'm usually seen at Christmas But I'm not a stocking or a bell
I am red and white in colour And shaped a bit like the letter L

If you hear these jingling around The night just before Christmas Day
You had better try to get to sleep As you are hearing Santa's sleigh

You might make this at Christmas So that you can stuff your face
A cake, icing and candy An edible dwelling place

When going around the world This animal can find the way
It goes to every country While helping pull Sanata's sleigh

Garland, lights and ornaments can all be seen
Hanging on this evergreen

It's thanks to beings like me that your toys don't come from stores
Because I'm a little helper who makes your gifts from Santa Claus
