

Near where you do your munchin', complete the math function.

In grade three, near flags may be, a question for thee.

Take a shot, record the score to see who gets more.

It is not Germany, but a task for all to learn about thee. (Grade 1 hall)

In our class you'll be, learning math from me!

By the front doors you must go, what you've learned you must show!

Into Kozlowski's room you go, help a 1st grader with what you know!

It looks easier than you thought, but you must take the shot!

On the playground you will be to show what you know about geometry.

To the workroom for a problem to consume!
