

HAPPY BIRTHDAY!

Starting is always easy. Go find your first clue under a box that helps you when you are sneezy.

Now you are on your way! Adventure to a place where you put your coats away.

Onward we go to your first Elemental Weapon. Journey to the Fire Temple for the Sword of Fire. You'll find it where fire's are started.

It's time to stop for a treat. Travel to the table to find something to eat.

Journey now to the Floating Ruins to find the Nunchuks of Lightning. You'll find them where things float.

From the Floating Ruins, travel to a place you wash your face. That's where you'll find your next clue.

It's cold where you will find the Shurikens of Ice. Journey to a place where things are kept frozen.

You're almost there, Spinmasters! Find the table with the last clue. It's hidden though. =)

Last CLUE! To find the Scythe of Quakes, journey to the Caves of Despair, often found where you train hard to be a Ninjago Master

You've done it! Congratulations! Collect your prize from the Sensei.
