

#1: Start the mission by planning your trip. Read all of your clues first and underline Mission #10.

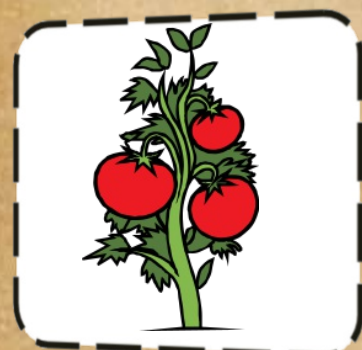

#2: Head out your front door to the reptile that bites. Name his habitat:

#3: Name 3 things that also live in #2 habitat. Find 1 and write it here:

#4: Follow a concrete path to another habitat. Who might live here?

#5: What might the animal in #4 eat? _____ Can you find it in your house?

#6: Find a place in your neighborhood where you might find other "food sources".

#7: Look for places that animals live that are man-made. Name the color of the one you find: _____

#8: Head to your own backyard. Find an example of how your house or yard helps animals.

#9: Stop and listen for sounds. Count the number of sounds you hear. Find the source of one of the sounds.

#10: Head into your habitat. Find a source of natural heat for your habitat and earn a treat!
