

When you're feeling dirty there's just one place to go To wash and get all squeaky clean and scrub between each toe.

Communicate with family, research, shop, and play games. Since this invention swept the globe, our lives have really changed.

Boob tube, idiot box, and telly are names for this machine. Oprah, House, and C.S.I. on it are weekly seen.

When your tummy starts to whine And it just won't be quiet Get something from this chilly box And you will satisfy it

This box is mostly filled with things that rarely bring you glee Like bills, and junk, and other stuff you'd rather never see.

It goes round and round But it isn't a ball The faster it spins The more you keep cool

The speed of life has made this furniture a thing of fables, But there were times when families once ate around these tables.

It's full of paper And full of ink But it's not a book So what is it do you think?

It seems our clothes just keep returning to this same machine. At least they're better than the things the ancients used to clean.

You're doing incredibly well You're a clue-answering fiend! The next place to look is where You put clothes that need to be cleaned
