

First things first! Come up with a team name and write it on the top of this paper.

We'll start off easy! I'll need one leaf that has started to change color!

Now find something the length of your arm that a deer would chew on. Don't break off a live branch!

Next up! Find a leaf that has been eaten by an insect.

Find 2 things a squirrel might save for winter.

Find a bird in a tree, what color is it?

Find an animal track and guess what kind of animal made it!

I bet that animal was on its way to get a piece of fruit from outside the Health Center. Get one too!

Its time to strut those colorful tail feathers! Find one of our exotic friends and try to get a team picture with it!

Return to school circle and sit in a circle with your team. Finish your final puzzle!
