

I am divisible by 3. Take a photo of me.

I have been here for many years. Who am I?

I lose my head in the morning but get it back at night. How many in each room?

You run or walk on me. How many are here?

I go in two directions. Take a selfie in me.

I have keys but no locks. I have space but no room. You can enter but cannot go outside. Take a photo of me.

I have many wheels but I do not move. How many are here?

I am in the place you eat your lunch. Count the number of items in me.

I am the place you can find places to go and things to do. I am not a person. Bring me something from here.

I am cool. How tall am I?
