

draw a picture of a bird you spot, with red on it

collect something you think a bird would eat

draw a picture of a bird you spot with white on it

whistle a tune to a bird and see if the bird copies

find the feather of any bird then draw what you think it might look like

Write down the number of bird nests you spot, guess how high off the ground they are.

collect bark from a tree that you spot a bird on

gather twigs and things to create your own small version of a bird nest, hide it under a bush.

examine near by bird poo, describe your reaction.

If you were a bird what kind of bird would you be? how big would you be? could you fly? where would you live? write about it on the back
