

Collect all the cool stuff that you find. Put them in this bag to keep for all time! :-)

The sun, the sun! It will hurt your eyes!! Find your shades to stay alive! They could be hidden anywhere, but maybe the wagon will have some to share!

If you want to scout tigers, you must blend in. Find your hat on the front porch and try to stay hid.

If you see a feather or two flying free, snatch them up! They're yours to keep!

They're cool, they're wild, and they're easy to see: go by the swing and get your slinky

Are you brave? Find a bug that's worth a save! If you're not, add something interesting to what you've got.

What good is a scout who can't keep a look out? You need binoculars. Venture to the hen house if you dare; hopefully you will find them there

There are just a few special tigers hiding, find one of these and earn a prize for your finding!

How will you defend yourself in time of attack? Gotta go get your water gun stick from around back

Now take those sticks and put them to use! I know of a butterfly you could abuse! Take time to explore and find candy galore!
