

We begin our hunt in a room with tables, keyboards, monitors, discs and labels.

This is a place you will run and play. We will go there three times a day!

The ladies in this place are kind and sweet. When you are the messenger, you will go here on two feet.

Sing one of your favorite songs in front of the music room. A picture or recording would be nice!

Another great place to exercise, jog and learn new games and the rules to play. However, sometimes you have to wait your turn.

Let's go to the next place full of yummys; where children chat and fill their tummies.

Go next to a room that is cool; filled with paints, brushes, crayons, clay and much more. This is where being creative is the #1 rule!

To end our hunt and find a treasure by ourselves--Go next to a room where stories fill the shelves.
