

If I am not sick I am ----- Find me in the garden, and you will find your card

We standing in a row , we need water and sun to grow, one of us is prettier then the rest, thats where your card will rest

Im a big ring, but not a wedding ring, when you stands in the centre of me you wont stand alone, find me to find your next card

Im installed on the wall I can make them see you but you wont see them ,find me to find your next card

I keep the animals safe at night , and in the day im all alone, find me and find your next card

I go up but at the same time go down, Up toward the sky and down toward the ground,Im present tense and past tense too,come for a ride and find your next card

Feed me and i will live, Give me a drink and i will die, find me and you will find your next card

I Run over fields and wood all day,under the bed i sit not alone,sometime my tongue hang out, up to the rear awaiting to be filled in the morning, find me to find your card

Im wet, Im wild somewhere around me you will find your card

Im last but not the lest here we will meet and eat , find your card
