

I'm getting kinda hot in here. (You use me in the winter)

I'm nice and wet in here

I'm kinda cramped in here with all these boxes

It's nice and breezy here in these blankets

I'm going to smell really good after getting found upstairs

It's cold down here down by this sewing machine

I'm scared of falling in here with all this glass

It's stuffy under the plaid chair

It's a cat filled place, but it's nice and squishy

You hopefully did it
